Subject: RE: Mass Spectrometer software upgrades

Hi Cam,
Thanks for gathering the information. It is too late to purchase software this fiscal year since it requires AF-29 approval.
We will prioritize these upgrades for next year.
Julie

Subject: Mass Spectrometer software upgrades

Julie,

I've attached Agilent's quote (#632306) to upgrade the three oldest, Boston mass spectrometer operating systems to Windows XP. The 4th and newest system already uses XP. The amount is \$5274.65. This would allow us to network the Boston mass spec computers and allow our IT department to provide and service a backup system.
I've also attached a quote (#632307) to upgrade one of the two Amherst mass spectrometers. The oldest Amherst system cannot be upgraded, so I see no urgency to upgrade at this time. The price is \$2037.55.

Cam
